STEIFF'S PURITY LAW

— for children, only the best is good enough

When we say that "for children, only the best is good enough" then that's no empty promise but rather a creed we have been living for generations: children are our present and our future. All cuddly animals we produce and sell must therefore more than comply with the highest of demands with regard to quality, safety, processing and material

characteristics. We place this standard above all other specified international controls and tests. Steiff's purity law is a fixed component of Steiff's corporate culture and is the basis for the trust our customers have bestowed in us for many years: that's what the Steiff seal stands for.

— Here you can read what we mean by the Steiff purity requirement and how we act accordingly. Not only, because the legislators specify it but rather because we want to.

1. NO HARMFUL SUBSTANCES

We voluntarily go far beyond the legally-required standards and even surpass them. Because we are convinced that only animals which pose no health hazard deserve the good name Steiff.

2. NO ALLERGENIC SUBSTANCES

We have high expectations of our suppliers whom we oblige to adhere to the strict Steiff guidelines. We extensively examine all the basic materials before they are used in production.

3. NO HARMFUL DYES OR COLOURS

We have voluntarily imposed stricter regulations than required by law for all our dyes and colours. Children can put Steiff products in their mouths without any misgivings.

4. HIGHEST-QUALITY MATERIALS

Only the finest natural fibres, such as mohair and alpaca or woven fur made of synthetic fibres, are woven in our own weaving manufactory, Steiff Schulte in Duisburg. Further more, we use only carefully-selected, inspected materials by well-known manufacturers. Our articles comply with the Oeko-Tex standard 100.

5. LINT-FREE PLUSH

The plush of a Steiff animal has always been something special. It is extra-ordinarily true-to-nature, soft, long-lasting and loses nearly no hair. We use only uppers made of the highest quality.

6. NO HARMFUL FILLINGS

We use exclusively new and nonharmful materials from the factory for the fillings of our Teddy bears and animals. The fillings of our animals, of course, comply with the Oeko-Tex standard 100.

7. HIGHEST-QUALITY SEAM WORKMANSHIP

This is ensured by the standardised Steiff seam width as well as the high density of seams, which is typical only for animals from our company. A Steiff animal will last a lifetime.

8. HYGIENIC PRODUCTION

For the production of our animals, we pay careful attention that we adhere to all hygiene and cleanliness standards. For example, that is why we use metal detectors during all the production processes.

9. INDEPENDENT INSPECTION

For decades we have had our products checked by independent institutions and work intensively with further independent institutions such as TÜV and Dekra. In our laboratory at Giengen an der Brenz we additionally carry out over 12,000 tests per year. The Steiff quality management system is certified according to DIN EN ISO 9001.

10. UNRIVALLED QUALITY SINCE 1880

Throughout the various production steps, we produce continuously environmentally-friendly as well as in view of the flaw-less quality and longevity of our products. A Steiff animal can be a companion throughout a whole childhood and still be a source of joy even as an adult.

CURRENT PROOF OF THE STRICT REQUIREMENTS OF OUR PRODUCTS:

THE DEKRA CERTIFICATE

Awarded based on worldwide recognised tests for mechanical, chemical, physical, health and hygienic clearance.

THE "SPIEL GUT" AWARD

The "spiel gut" rating is awarded by the Children's Games and Toy Task Force (Arbeitsausschuss Kinderspiel und Spielzeug e.V.) for a particular toy. Materials, production and use are the focus of this testing.

THE CE SYMBOL

The CE identification confirms that the product complies with all valid European toy safety guidelines with regard to product safety.

THE ISO 9001 CERTIFICATION

The ISO 9001 certification confirms that the Steiff Company complies with the highest standards of the QM system.

BEST MATERIALS

— *Millimetre for millimetre. Metre for metre: only the very best will do.*

The fusion with Schulte, our long-term Steiff supplier, in 2009 has made us the world's only supplier of plush toys with an own fabric mill. The entire manufacturing process is therefore in the hands of the Margarete Steiff GmbH: from the first idea to the design, from fabric production

to sewing and the manufacture of every single Steiff animal. At Steiff Schulte in Duisburg we turn thread into noble materials such as alpaca, mohair and silk as well as other luxurious materials. All these are in turn raw materials for wonderful, master-crafted Steiff creations.

Alpaca – Soft, silky and lush.

Although the number of alpaca animals in the Steiff range has increased in recent years, the company discovered the material many years ago. Its resurgence in popularity is due to its wonderful feel and tremendous versatility. Alpaca can be used to create both soft Teddy bears and ultra-realistic animals.

Mohair – Lustrous, shiny and sleek.

This natural material from the wool of the angora goat is the classic Teddy bear material. In fact, it was used for the first Teddy bear ever created. The fiber is both beautiful and durable, which accounts for the amazing number of vintage Steiff creations that appear today in superb condition. Most Teddy bears and animals in our current Classic range are made of mohair material.

Woven Fur – Cuddly, velvety and versatile.

Amazingly soft and natural-feeling, this beautiful fabric is quite valuable. It is created through a unique three-dimensional weaving technique that involves inserting threads into cotton backing perpendicularly. The result is especially appropriate for huggable toys, though this sumptuous fabric is also used in our Studio range of near life-size creatures.

PERFECTED UNIQUE SPECIMEN

— *Characteristics which make the difference*

Whether a cuddly toy is a member of the big Steiff family becomes apparent by the famous "Button in Ear" trademark. This has varying designs depending on status. The yellow flag specifies that it is a "legitimate" member of the family. A white ear flag with red writing is

only worn by animals in limited editions. And finally, you can recognise the Steiff Selection Edition by the silver writing on the white ear flag. These are the members with a particularly exclusive "gift" status.

Original Collection

Every original Steiff animal with the world-famous trademark, the Steiff "Button in Ear", shows that it comes from one of the best families – and every Steiff Teddy bear and Steiff animal proudly wears an ear tag as a clearly recognisable identification. Both big and small Steiff fans immediately recognise the yellow Steiff ear tag with red writing. It shows that this is one of the many, wonderful animals and Teddy bears from the wide, unlimited Steiff assortment – an unmistakable original from the famous company with a long-standing tradition.

Limited Edition

All the animals and Teddy bears at Steiff are very pleased to receive the extraordinary distinction of the white ear tag with red writing because these are produced in a limited edition. This means that only a limited number is available and some are available only in certain countries. Each of these limited edition Steiff animals with the white ear tag and the gold-plated "Button in Ear" also brings his new owner a certificate that insures the authenticity and special status as a limited edition Steiff animal.

Selection Collection

Steiff presents modern lifestyle products under the label "Steiff Selection". They are made from particularly luxurious materials at the Steiff production sites and fulfil the highest demands with their extraordinary designs.

A DAY AT THE SEASIDE

— *New adventures with the Teddy bear Family.*

Charly the dangling Teddy bear has told his little friends Fynn and Lotte lots of exciting stories about the sea. With the fresh sea breeze rushing through their soft fur, it's never too hot for a Teddy bear at the seaside. And on the beach, there are as many grains of sand as there are stars in the night sky. Far more, probably. No one knows for sure, because no one has ever counted them. But curious Lotte wants to know and, having made herself comfortable on Charly's cosy red beach towel, she starts counting the grains of sand in her head. At the same time, Charly checks that his boat is ready for sailing and, bustling with energy, packs the blue-and-white striped family suitcase. Not forgetting of course

Cappy Frog, who will be teaching his friends Fynn and Lotte how to swim. Needless to say, Charly is also packing presents for the many friends who live in the sea. Most of all, he's looking forward to seeing Flossy the clown fish, who is usually to be found swimming with his sea kindergarten pal Starly the banner fish through the coral reef where Putsi the seahorse also lives. Clippy the Steiff dolphin keeps a watchful eye over the coral reef and its colourful, friendly and sprightly inhabitants, all with plenty of stories to tell. Maybe one of them will even leave the sea to join its new owner on his or her travels as a keyring.

NEW

TEDDY BEARS

— *For wonderful friendships which begin on four paws.*

Good day! The Steiff Teddy bears introduce themselves, and look forward to making their way to their new little owners. Hanna and Hannes are quite excited about which children's room they are going to move into. The lively bears can hardly keep their arms and legs still because of their excitement. The Steiff Molly Teddy bears take a curious look around with their big bear eyes and think about what wild adventures they will soon be having with their children. The Elmar and

Petsy Teddy bears are already telling each other stories about how they would like their new homes to look. And the Teddy bears Charly, Fynn and Lotte, have already packed their suitcases with all their belongings: ready for the great journey to their children. Finally, all the enchanting, cuddly soft Steiff bears raise their paws in greeting, wave their Steiff home in Giengen goodbye for the last time – and open up their arms in a hearty hug for their new little owners.

PETS AND FARM ANIMALS

— *Bring life to life. And lots of joy.*

Horse, dog, cat, rabbit. Interacting with animals enriches our lives and makes them more colourful too. And although a real pet brings an abundant amount of happiness, it is also a lot of work. That is why the pets and farm animals by Steiff are very easy-care companions that are happy and content with a little attention; a cosy, warm spot at home and a large portion of affection. And the best thing: at first glance, you can hardly tell the difference between them and their role models in real life. Whether large or small, the pets and farm animals by Steiff are just as exciting and cuddly as a real animal. Yet they are much more patient and forgiving when little hands stroke their fur and cuddle

them with a bit too much childlike enthusiasm. Which of the lovingly and realistically created Steiff pets will win over your heart? A fluffy kitten or a budgie with a strong character? Or perhaps one of the charming and sprightly farm animals such as the Steiff rabbits, lambs, mice or chicks? And if you and your little family members have always wanted to go canine crazy: you will certainly find your favourite family dog among the enchanting four-legged friends by Steiff. And your Steiff dog has another advantage, he doesn't need quite as much exercise as the real thing. There is only one absolute necessity: lots of affection. All of the Steiff animals are in agreement on that.

FOREST AND MEADOW ANIMALS

— *You will be glad to give these nature lovers a new home!*

They bound joyfully over hill and dale. Dash across meadows. Rustle through the forest leaves. Or sit in the treetops cheekily and curiously. They keep a watchful eye out for little Steiff fans who might give them a new home. And even if the little ones have never seen these real-life animals playing and romping outside while out for a stroll: the Steiff forest and meadow animals look amazingly similar to the living originals so that children can get a good first impression of these charming

animals that are at home here in our region. Yet one thing is clearly different about the lovable Steiff animals and their real-life role models: with their incomparably fluffy fur or feathers made of soft woven fur they are much cuddlier and softer than the real-life species. And they are also much tamer and more affectionate. Thus, it is simple to strike up a friendship with a bear, fox, owl, squirrel and mole. It has never been easier or more pleasant to stroke and hug a hedgehog or a wild boar!

WILD ANIMALS

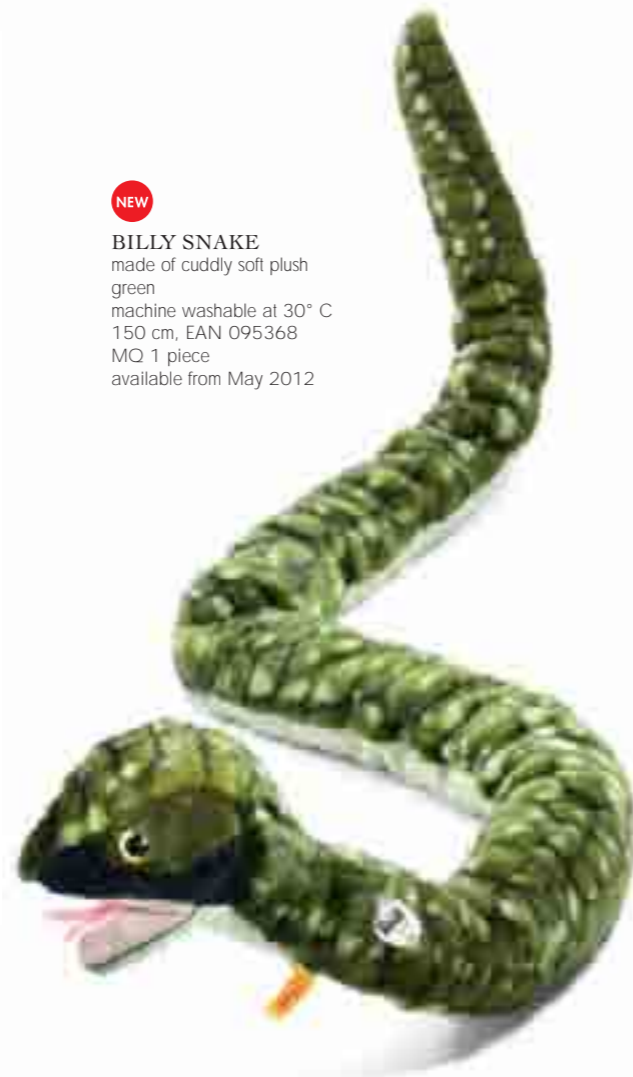

— *Now the wide, wild world of animals is coming to your home.*

They are wild. They are fascinatingly elegant – and only few animal enthusiasts are lucky enough to experience these breathtakingly beautiful, exotic wild animals from all over the world in their natural habitats. And what makes these creatures even more fascinating for animal lovers is the sense of the unattainable. We have succeeded in taming many of these wonderful exotic animals from the various continents and bringing them home to big and small animal lovers as adorable Steiff animals in fascinatingly realistic quality and optical perfection. Experience your own personal safari with rare rhinoceroses, giraffes and lions. Sense the fascination of distant lands eye-to-eye with

turtle, chimpanzee and elephant. Or experience your own wild jungle adventures in the playroom with your little ones – and enjoy the look of wide-eyed wonder and excitement on your child's face. And everyone is welcome to get as close as they like to these magnificent creatures. In contrast to the real animals in the wild, you can cuddle the wild animals by Steiff without any danger and stroke their beautiful fur as long as you like. It is a promise! These are just a few of the advantages that Steiff animals have over the originals in the wild.

ARCTIC AND MARINE ANIMALS

— Here come the heroes from the frozen wilderness and the oceans.

Penguins, polar bears and seals are normally at home in the distant regions of the Arctic: ice and freezing, cold temperatures are their daily companions. The Steiff Arctic animals are looking forward to a trip to a warmer climate and are happy to find a new home with Steiff friends both big and small.

The fascinating dolphins will also gladly trade their usual surroundings in the depths of the oceans and come up to peer at their new friends and owners.

DINOSAURS

— *The past is now coming to life!*

The new Steiff Dinosaur Clan welcomes all the little as well as big reptile fans to the exciting prehistoric period! Whether in the air, on land or in the water – sometimes dangerous or sometimes quite peaceful: millions of years ago, the Tyrannosaurus Rex, Diplodocus and Triceratops were up to mischief and experienced exciting adventures every day.

Now Steiff friends can go back into the past with these fascinating and cuddly-soft primordial beings on an equally exciting adventure tour!

FANTASY ANIMALS

— *Straight from the imagination and into your heart!*

You will find them in books, in dreams, in films, and in fantasies. Until now, they existed only in the mind and imagination. But now Steiff has brought them to life – a mythical dragon and two unicorns, unique species making their debut this year. It's difficult to imagine a less ferocious dragon. He's soft and cuddly and ready to be friends – even with knights and damsels! And our unicorns, one dangling and one

standing, are ready to bring a bit of whimsy to playtime or your collection. Plus, unicorns have a special significance for our company – the unicorn is the official symbol of the city Giengen, the home of Steiff! Regardless of which character you choose, we guarantee you'll have more fun than you can imagine!

STEIFF'S HAPPY FRIENDS

— Come and play with us!

"Psst! Are you awake? I need to show you something ..." That's what it sounds like when Steiff's Happy Friends start a new day. And of course they don't need to ask their owners twice: A new day of fun and adventure starts. Inseparable and always together – how else should it be!

RIDING ANIMALS

— I wish for an animal to ride on!

The familiar children's nursery rhyme "Horsey Horsey...", still makes children giggle with glee today just as it has in days gone by. Experiencing the world from a whole different perspective on the back of an animal has always had a special kind of magic. Therefore, the riding horse has long been one of the most beloved items on children's Christmas lists. We at Steiff have provided a few comrades on a par

for the classic riding horse. All of them have an improved design and especially high-quality woven fur. And so that our smallest riding enthusiasts can mount up and go on adventures comfortably and safely on the backs of their favourite animals, the rockers of the Steiff riding animals are made of solid beech and the inner frame is handmade of stainless steel that can hold up to 150 kilograms.

STUDIO ANIMALS

— Characters that love being in the spotlight.

They are accustomed to attracting attention, being in the spotlight and being photographed: the largest of all the Steiff animals – the studio animals. As both sought-after as well as beloved models of great proportion, they know what is important: an impressive, absolute realistic

stature, a charming character and great charisma. The high-quality, hand-stuffed giants are always decorative highlights at events, parties or in commercial and private premises. They attract people's attention with lots of enthusiasm. Guaranteed.

STEIFF'S LITTLE FLOPPIES

— *The Beginning of a Great Friendship.*

To know them is to love them! These cute, little floppies by Steiff are made of cuddly soft plush and are guaranteed to put a joyful spark in children's eyes for many years.

If you own one or even several of the unbelievably soft, cuddly Little Floppies, you can really count yourself lucky. The only problem ever

experienced by their owners is the fact that no-one ever really wants to let go. But then they don't have to – only sometimes. Maybe for a tiny little moment or two ...

KEYRINGS

— *These little friends just want to hang around!*

It must be in their blood. They simply cannot help themselves. The little Steiff keyring animals just have to be around wherever you are. Their thirst for know-ledge is so unbridled. They are so curious. They are so full of energy and endurance that every day is a great new adventure. And these little animals with fluffy-soft fur have an incomparable love of travel. Their good mood is contagious and you simply cannot resist

their friendly, inviting expression. These cute Steiff miniatures go along day after day on great, new adventures on the secure and practical keyring. After all, there is nothing more exciting for these animals than to experience their little owners' turbulent everyday lives on a bunch of keys, on a bag, on a rucksack, on a pencil case or a school bag!

BOOK AND FILM HEROES

– *These real stars will conquer your heart.*

Knopf and Frieda – Where else could an entertaining fellow like Teddy bear KNOPF live than on a planet called Plush? And since he and his friend Frieda live so far apart, they write lots of letters to each other – and this is where the innumerable adventures of these two Steiff friends begin.

The KNOPF stories have a lot to do with writing letters, so they are exciting and educational at the same time. If you would like to visit KNOPF and FRIEDA, then visit us at the “Steiff Museum” in Giegen an der Brenz, Germany.

The Mainzelmännchen are six cartoon characters called Anton, Berti, Conni, Det, Edi and Fritzchen. Invented and shaped by graphic artist Wolf Gerlach in 1962, they are used by ZDF just as before, as commercial separators in the pre-evening programme. After more than 45 years the Mainzelmännchen are the longest serving employees of ZDF and were the trademark and role model of the company right

from the beginning. Steiff is pleased to present one of the Mainzelmännchen, and indeed the most popular, Det, as a true sports fan for young and old. In 2010 he is of course wearing his football kit and his appearance is sure to please.

BABY

— *Welcome to life, little one!*

Everything is so exciting for a new little child: The world is so big and every day is full of overwhelming impressions. Thank goodness that Mummy and Daddy are always there to lend a helping hand and to protect them on such great adventures. And it is even nicer when babies are welcomed to life right from the start by a real little friend by Steiff who can help them to learn about and understand the big, wide world. Someone who is always there to snuggle, protect, comfort and nap with. And someone who can help the little ones playfully discover

their senses of taste, hearing and sight. The baby items by Steiff for little ones from birth to 18 months can train their senses in the cuddliest ways with materials that are perfectly suited because they are especially soft and gentle to baby skin. Mummy and Daddy are happy because all the products are especially soft and gentle to delicate baby skin and that they comply with the Oeko-Tex Standard 100 and are tested by Dekra. After all, parents want only the best for their little ones. And so do we.

STEIFF ORGANIC COTTON

— *Eco-quality of the highest level.*

The Steiff Bio-Baby series is made of pure organic cotton from controlled organic cultivation. Our organic cotton, woven in our own weaving mill Steiff Schulte in Duisburg, is certified according to GOTS (Global Organic Textile Standard) and complies with IVN guidelines (Internationaler Verband der Naturtextilien [International Association of the Natural Textile Industry]). This allows us to achieve incomparable product

quality, which stands for all-round unspoilt nature: ecological cultivation without pesticides, no application of optical brighteners, colouring without allergenic components as well as fair working conditions for all those involved. Feeling, touching, smelling and tasting – that's how our little ones discover their big world. And are now joined by their Steiff friends made of purely organic materials.
