# PERFECTED UNIQUE SPECIMEN

*Characteristics which turn a brand into a legend.*

For a child's toy, a child's life-long companion, to be welcomed into the famous home of the Steiff family it must first receive the Steiff seal of approval - the famous trademark "Button in Ear". The Steiff "Button in Ear" design may vary. A yellow tag attached to the Button indicates the toy is part of the current range. A white tag with red writing attached to the button is gifted to all the Steiff limited editions. And a white tag with black writing attached to the button is gifted to all the Steiff limited edition replica designs.

*It is the final step that makes Steiff animals truly unique  
– when they are given their "Button in Ear".*

## *Original Collection*

Every original Steiff animal with the world-famous trademark, the Steiff "Button in Ear", shows that it comes from one of the best families – and every Steiff Teddy bear and Steiff animal proudly wears an ear tag as a clearly recognisable identification. Both big and small Steiff fans immediately recognise

the yellow Steiff ear tag with red writing. It shows that this is one of the many, wonderful animals and Teddy bears from the wide, unlimited Steiff assortment – an unmistakable original from the famous company with a long-standing tradition.

UNIQUE SPECIMEN

*Every single part of a Steiff animal is sewn by hand.*

*Decorative stitching: putting the finishing touches to each Steiff animal.*

## BEST MATERIALS

*Millimetre by millimetre and thread for thread: simply the best.*

The fusion with Schulte, our long-term Steiff supplier, in 2009 has made us the world's only supplier of plush toys with an own fabric mill. The entire manufacturing process is therefore in the hands of the Margarete Steiff GmbH: from the first idea to the design, from fabric production to sewing and the manufacture of every single Steiff animal. At Steiff Schulte in Duisburg we turn thread into noble materials such as alpaca, mohair and silk as well as other luxurious materials. All these are in turn raw materials for wonderful, master-crafted Steiff creations.

## MATERIALS

### *Plush – fluffy, versatile, soft*

Plush Steiff animals are fluffy and feel particularly soft and gentle. A special finishing technique gives Steiff's knitted plush fabric a unique combination of soft feel and high durability. Plush can be used for a multitude of applications and its functionality makes it the ideal choice for the special demands of children's sensitive skin.

### *Woven fur – cuddly, velvety, robust*

Amazingly soft and natural-feeling, this beautiful fabric is quite valuable. It is created through a unique three-dimensional weaving technique that involves inserting threads into cotton backing perpendicularly. The result is especially appropriate for huggable toys, though this sumptuous fabric is also used in our Studio range of near life-size creatures.

### *Alpaca – soft, silky, opulent*

Although the number of alpaca animals in the Steiff range has increased in recent years, the company discovered the material many years ago. Its resurgence in popularity is due to its wonderful feel and tremendous versatility. Alpaca can be used to create both soft Teddy bears and ultra-realistic animals.

### *Mohair – lustrous, shiny and sleek*

This natural material from the wool of the angora goat is the classic Teddy bear material. In fact, it was used for the first Teddy bear ever created. The fiber is both beautiful and durable, which accounts for the amazing number of vintage Steiff creations that appear today in superb condition. Most Teddy bears and animals in our current Classic range are made of mohair material.

# STEIFF'S PURITY LAW

*For children, only the best is good enough.*

When we say that “for children, only the best is good enough” then that’s no empty promise but rather a creed we have been living for generations: children are our present and our future. All cuddly animals we produce and sell must therefore more than comply with the highest of demands with regard to quality, safety, processing and material characteristics. We place this standard above all other specified international controls and tests. Steiff’s purity law is a fixed component of Steiff’s corporate culture and is the basis for the trust our customers have bestowed in us for many years: that’s what the Steiff seal stands for.

### *The Dekra certificate*

Completely safe from a mechanical, chemical, physical, health and hygiene perspective: Steiff products pass strict, internationally renowned tests in order to obtain the Dekra certificate.

### *The CE mark*

Product safety in accordance with European toy safety directives: all Steiff products bear the CE mark.

### *The ISO 9001 Certification*

Exemplary quality management: Steiff regularly meets the strict ISO 9001 requirements during certification audits.

### *The “spiel gut” Award*

The Children’s Toys Working Committee awarded several Steiff items the “spiel gut” award for outstanding toys. Above all, the material, production and usage of these toys were examined. The awarded items are marked with this logo.

Here you can read what we mean by the Steiff purity law and how we act accordingly. Not only, because the legislators specify it but rather because we want to.

### *1. No harmful substances*

We voluntarily go far beyond the legally-required standards and even surpass them. Because we are convinced that only animals which pose no health hazard deserve the good name Steiff.

### *2. No harmful dyes or colours*

We have voluntarily imposed stricter regulations than required by law for all our dyes and colours. Children can put Steiff products in their mouths without any misgivings.

### *3. Highest-Quality materials*

Only the finest natural fibres, such as mohair and alpaca or woven fur made of synthetic fibres, are woven in our own weaving manufactory, Steiff Schulte in Duisburg. Further more, we use only carefully-selected, inspected materials by wellknown manufacturers.

### *4. Lint-Free plush*

The plush of a Steiff animal has always been something special. It is extra-ordinarily true-to-nature, soft, long-lasting and loses nearly no hair. We use only uppers made of the highest quality.

### *5. No harmful fillings*

We use exclusively new and nonharmful materials from the factory for the fillings of our Teddy bears and animals.

### *6. Highest-Quality seam workmanship*

This is ensured by the standardised Steiff seam width as well as the high density of seams, which is typical only for animals from our company. A Steiff animal will last a lifetime.

### *7. Hygienic production*

For the production of our animals, we pay careful attention that we adhere to all hygiene and cleanliness standards. For example, that is why we use metal detectors during all the production processes.

### *8. Independent inspection*

For decades we have had our products checked by independent institutions and work intensively with further independent institutions such as TÜV and Dekra. In our laboratory at Giengen an der Brenz we additionally carry out over 12,000 tests per year. The Steiff quality management system is certified according to DIN EN ISO 9001.

### *9. Unrivalled quality since 1880*

Throughout the various production steps, we produce continuously environmentally-friendly as well as in view of the flaw-less quality and longevity of our products. A Steiff animal can be a companion throughout a whole childhood and still be a source of joy even as an adult.

# TEDDY BEARS

*– my best friends.*

HELLO,  
I'M THEO.

*Theo Teddy bear*  
page 12

“Shall I comfort you?” “Tell me a story!” “Come on, let’s go and play!” Steiff Teddy bears look at their friends time after time with bright eyes. Children can find love and understanding in those eyes, and then sudden, sheer exuberance too; certainly some of the best criteria for great play days. Our cuddly friends can be thrown in the air and hugged. They are great listeners and bed-time companions. Tears also have a place here in Teddy bear’s plush fur. Nearly all of our Teddy bears are made from the best eco-friendly materials and when they get a little dirty while out in the garden, then they don’t mind being washed warm at 30° C in the washing machine. Wash, ruffle up and leave to dry and Teddy bear’s fur will soon be back in great shape.

## MAGNETIC ANIMALS

– *climbing fun!*

The Steiff magnetic animals have magnets inside their hands and feet. This allows them among others to climb the children's bed, the curtain rod or hug the child. So these animals create lots of fun and adventures. They are made of very high quality materials and are faithful companions, which are machine washable at 30° C, if the adventure was too wild.

## ARCO POLAR BEAR

*Here come the favourites of all children and parents...*

Cuckoo! Helloooo, who's going to play with me? Endless energy. Just as much adventurousness and curiosity. Yes, they have a great deal in common with their role models outdoors. Visually, the lifesize Steiff animals are also more than just similar to their genuine animal role models. With their little owners by their side they are up for all kinds of fun every single day. They are also real experts when it comes to providing comfort and support when children's everyday lives are a bit mad. And when they are all tired after romping around and playing hide-and-seek, there's an extra large portion of affection with 100% hugging and cuddling guarantee. Or even two portions. Or three...

# FOREST AND MEADOW ANIMALS

I WAS TESTED AND PASSED  
WITH FLYING COLOURS!

1

What's that rustling in the dense foliage? Who is peeping from behind the trees? And who quickly jumps to hide in the branches? The small but very impressive forest and meadow inhabitants have only hidden for a short while to take a closer look at their new friends and soon-to-be owners. You. Ready to make their acquaintance?

## WILD ANIMALS

*Now the wide, wild world of animals is coming to your home.*

"SSSSSSSS!" I AM JAMILA, THE BIG SNAKE.

NEW

*Jamila snake*  
page 85

They are wild. They are fascinatingly elegant – and only few animal enthusiasts are lucky enough to experience these breathtakingly beautiful, exotic wild animals from all over the world in their natural habitats. And what makes these creatures even more fascinating for animal lovers is the sense of the unattainable. We have succeeded in taming many of these wonderful exotic animals from the various continents and bringing them home to big and small animal lovers as adorable Steiff animals in fascinatingly realistic quality and optical perfection.

I WANT TO PLAY WITH YOU!
